

Bandeen Orthodontics

8865 PROFESSIONAL DRIVE CADILLAC, MI 49601 876-2530

Thank you for choosing Bandeen Orthodontics for your Orthodontic needs. As the only full-time Orthodontist in Cadillac, I am always here to ensure that your experience is the best possible.

Dr. Roger L. Bandeen

Reasons why we are proud of Bandeen Orthodontics:

1.) You receive a FREE initial examination that I do personally.

I am here to answer all of your questions. Even though our staff is one of the finest around I see every patient that comes to our office. I pride myself on personally providing you with the best quality of care possible. I personally determine all steps of your treatment. It is what you can expect in this office.

2.) I am the only person that places the braces on the teeth.

I believe that this is a key component to receiving top Orthodontic care. I place all braces on your teeth because correct placement of braces is directly related to the quality of your results and the length of time that you are in braces.

3.) We offer the latest technology in braces and wires.

The cost of Damon is higher than the old braces, but you are NOT charged for it. It is worth it to me to provide the best care possible. I am the only Orthodontist exclusively using Damon braces in the Cadillac area. Because of this technology you receive the following additional benefits:

a. **NO headgear!** No more uncomfortable Herbst appliances! Hooray!

b. **Less discomfort!** 800 times less friction than any other brand. Don't let anyone tell you that another brand is just like Damon. It is not true.

c. **Shorter treatment time!** This saves time and money. Early treatment may not be necessary with modern technology. (Why do it if you don't need to do it! Don't put your child through that!!)

d. **Rarely needing fixed or removable expanders!** This saves time and money. *I wrote my thesis on expanders and have a patent on expanders. I know expanders!*

4.) We offer evening hours. This is a favorite of our patients!

5.) Making a difference in our community.

I donate my time as a tennis coach at Cadillac High School. I am active in Cadillac Friends of Rotary. I try to attend activities that my patients are involved in. I believe strongly in supporting the community where I work and live. We live in Cadillac and love it here! I do everything I can to support this community. Our family first came to this area in 1882, so we are here to stay.

6.) I have 29 years of experience.

I love what I do! I am current in my knowledge of Orthodontics. I mentored an Orthodontic Resident at The University of Michigan in the Department of Orthodontics. This is an exciting time for orthodontics. The advances in materials and techniques are making this field so exciting. **Example of changes are no more need for the old fashioned early treatment and hardly ever using expanders. No more Herbst appliances.** (If you had one years ago you know what I am talking about!)

7.) We offer family discounts and many payment options. We can make this work for you.

8.) I am a graduate of one of the leading dental schools in the country, The University of Michigan. I graduated in the top 3% of my dental class. I also have a degree in Engineering from Michigan State University. An Engineering degree is very helpful in Orthodontics. I continue to publish extensively. My latest article was co-authored in 2011 with the orthodontic department at The University of Michigan.

9.) The main goal is to make this a positive experience for you.

Thanks for coming in! Take a look around the office. Ask your friends about us. There are so many reasons why you would be happy here! We are looking forward to getting to know you!
